# Geopolitical uncertainty and expectations of government

**Anneke Greyling**  
Director,  
GlobeScan Africa

Cape Town

# Context

1

War and conflict  
across key  
regions

2

Nearly 80 countries hosting national elections

## 2024 is the biggest election year in history, but the quality of democracies varies widely

### Countries with an election in 2024, by democracy score

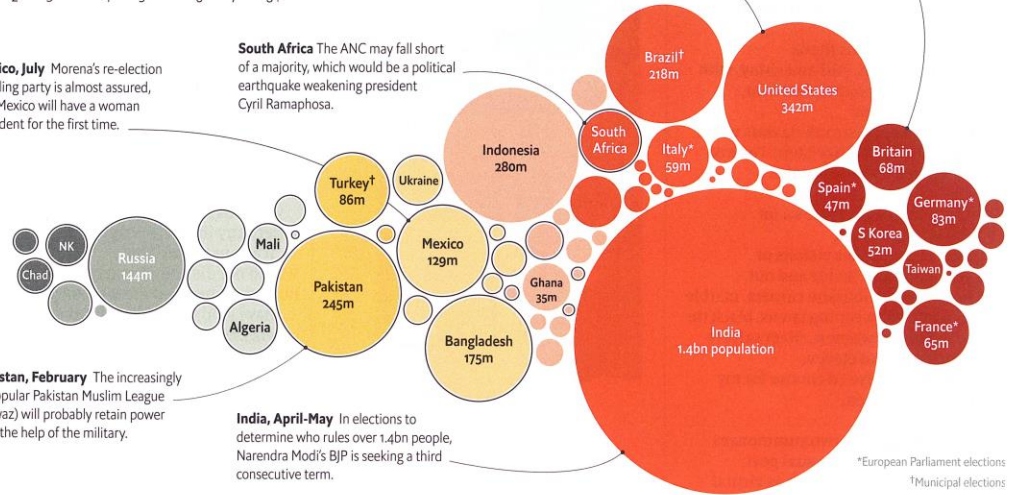

**US, November 5th** Domestic politics are likely to remain painfully polarised, but who wins matters greatly for foreign policy.

**Britain** A win for Labour could see the Conservatives unravel, but will also expose Labour's schisms.

**Mexico, July** Morena's re-election as ruling party is almost assured, and Mexico will have a woman president for the first time.

**South Africa** The ANC may fall short of a majority, which would be a political earthquake weakening president Cyril Ramaphosa.

**Pakistan, February** The increasingly unpopular Pakistan Muslim League (Nawaz) will probably retain power with the help of the military.

**India, April-May** In elections to determine who rules over 1.4bn people, Narendra Modi's BJP is seeking a third consecutive term.

\*European Parliament elections  
†Municipal elections

# Context

3

## Democracy on the decline

### 17 YEARS OF DEMOCRATIC DECLINE

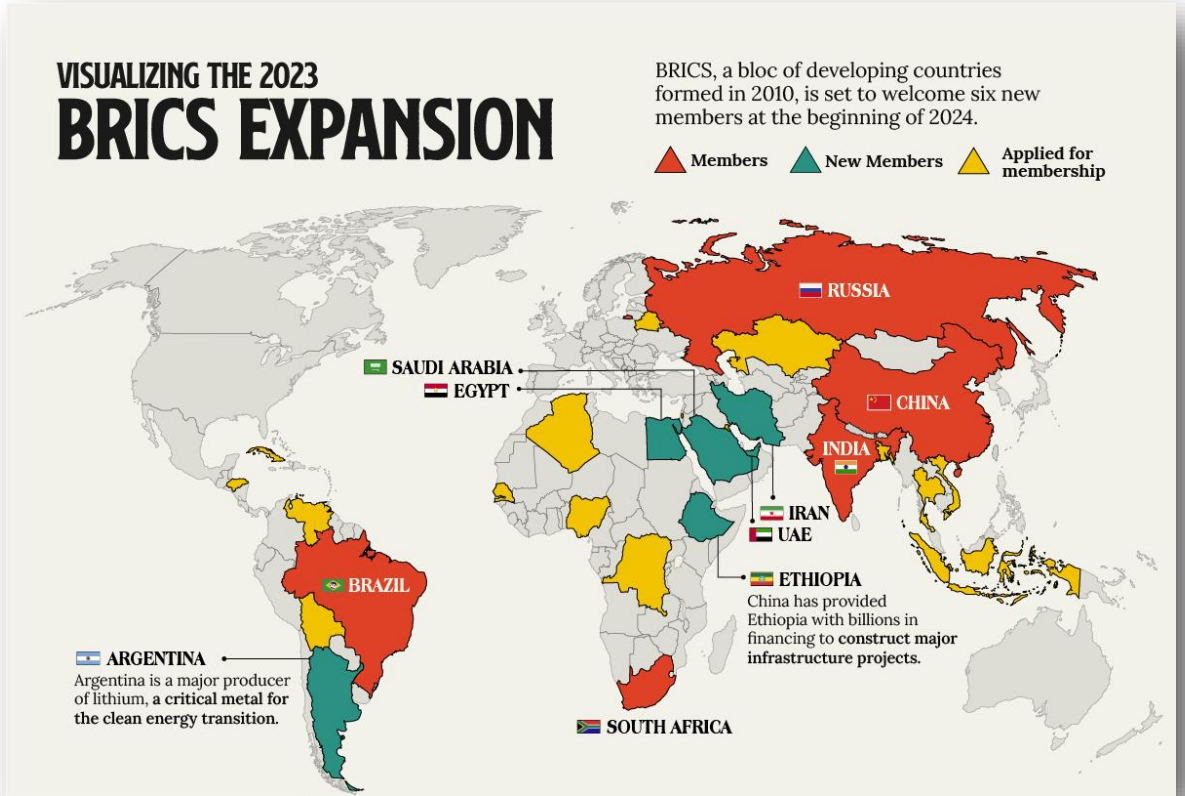

Countries with aggregate score declines in *Freedom in the World* have outnumbered those with gains every year for the past 17 years. However, events in 2022 generated the smallest margin—and the smallest number of countries with declines—since the negative pattern began.

# Context

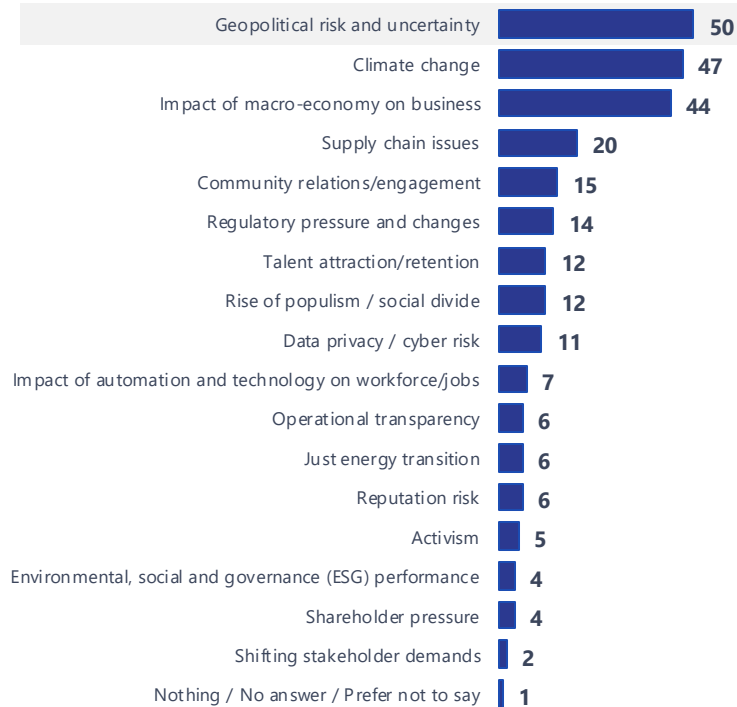

4

New economic order on the rise

# Concerns related to the political order tops the agenda

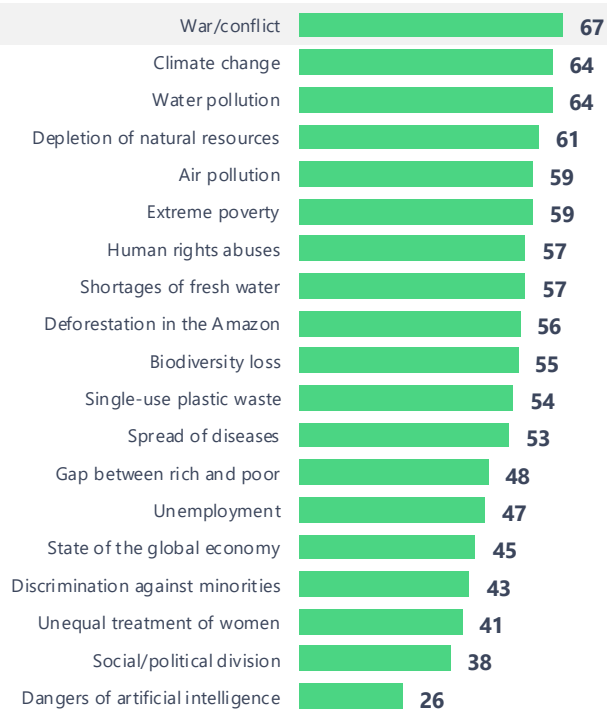

## Geopolitical risk and uncertainty identified as top risk by Corporate Affairs professionals

Globe Scan

## War and conflict tops list of global concerns amongst public across 31 countries

Globe Scan

Q40. What are the top three areas that are the biggest risks for global businesses over the next two years? Please list below in order of biggest risk, where 1 is the biggest, 2 is the second, and 3 is the third biggest risk. (n=109)

T1. For each of the following possible global problems, please indicate if you see it as a very serious, somewhat serious, not very serious, or not at all serious problem. Average of data from 31 countries

# Expectations

## Government legislation on sustainability expected to increase

■ More ■ Same ■ Less

Global Sustainability Leaders Survey, 2023

Q: Our previous survey on sustainability leadership showed that government legislation and disclosure requirements are currently seen to drive the sustainability agenda. Do you expect more, less, or the same amount of government legislation on sustainability in your country over the next twelve months?

## Long-term trend of growing public support for regulating corporate responsibility

T8\_3. Our government should create laws that require large companies to go beyond their traditional economic role and work to make a better society, even though this could lead to higher prices and fewer jobs.

\*Includes Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Kenya, Mexico, Nigeria, South Korea, Spain, Turkey, UK, and USA. Before 2020 this question was asked using an in-person and telephone methodology.

# Evolving activism and pressure

**Femke de Man**  
Senior Director,  
**GlobeScan**

★ Toronto

# Scientific/academic institutions and civil society much more trusted than government and business

## Trust in Institutions

Net Trust,\* Average of 16 Countries,\*\* 2001–2023

\*"A lot of trust" and "Some trust" minus "Not much trust" and "No trust at all"

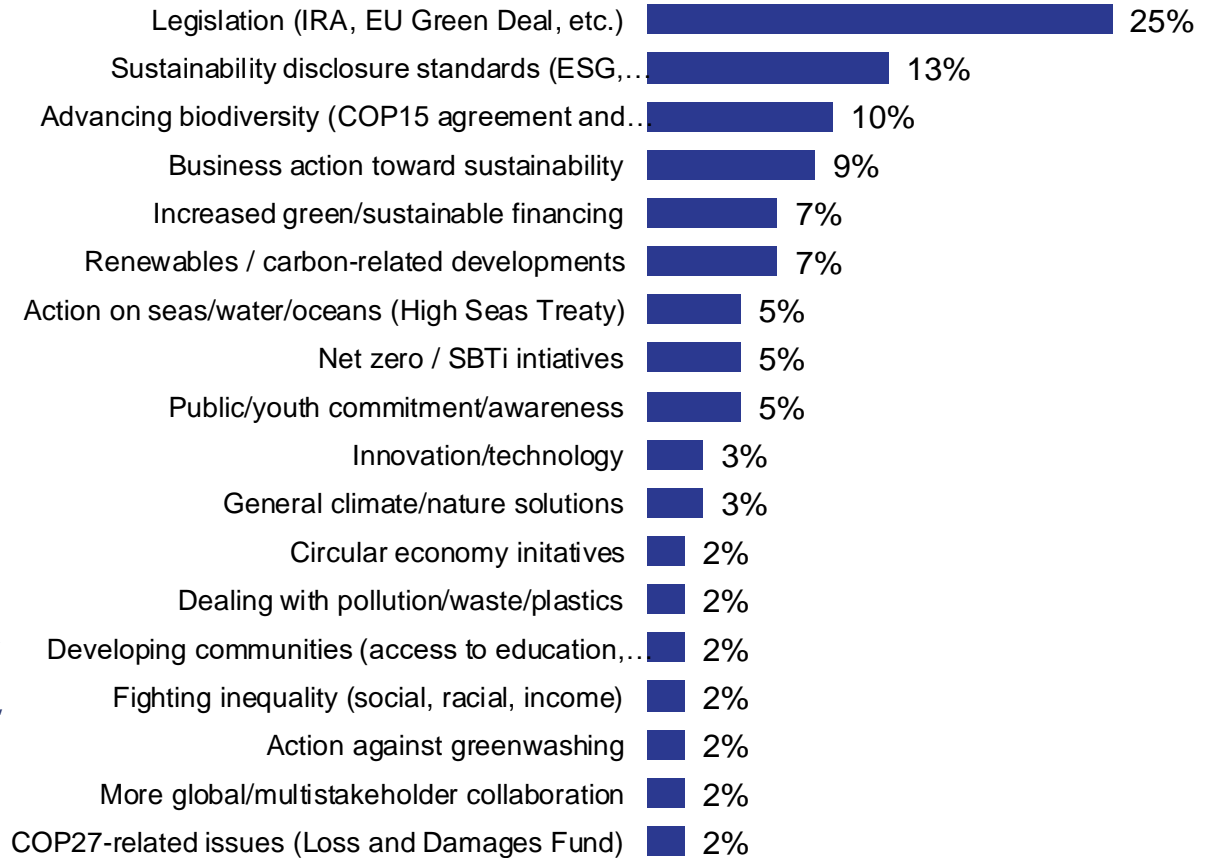

17 T3. Please indicate how much you trust each of the following institutions to operate in the best interest of our society. Would you say you have a lot of trust, some trust, not much trust, or no trust at all in...?

# Experts See Range of New Legislation as Most Significant Recent Sustainability Breakthrough

Question

Over the past 12 months, what has been the most significant positive action or development related to the sustainability agenda? This action or development may have come from the public sector, civil society, business, finance and investment, or any other part of society.

Global Sustainability Leaders Survey, 2023

# NGOs and the UN are ranked the highest on their perceived net performance on helping meet the SDGs; national governments are rated the lowest

## Perceived Performance of Institutions on the SDGs

Subsample: Asked to Those Who Know "A Lot" or "Some" about the SDGs, Net Performance,\* Average of 31 Countries, 2023

\*"Very good" and "Good" minus "Poor" and "Very poor"

T47. How would you rate the performance of each of the following in making sure that the Sustainable Development Goals will be met?

# Collaboration and Stakeholder Engagement Drive NGO Leadership

Question

Why do you think [insert NGO #1] is a leader in sustainable development?

*Please choose up to two from the list below.*

% of Experts, Total Mentions, 2023

Global Sustainability Leaders Survey, 2023

# Engaging and enabling consumers

 Hong Kong

**Victoria Gilbert**  
Director,  
GlobeScan Asia Pacific

# Almost all markets have seen increases in personal impact of climate change over the past three years

## Extent Personally Affected by Climate Change

“Greatly Affected,” by Market, 2020–2023

# Belief that a sustainable lifestyle is beneficial to personal health and wellbeing is stronger in emerging markets

## Attitudes on the Sustainability-Health Connection

“Strongly” and “Somewhat Agree,” Average of 31 Markets and by Economic Development, 2023

23 Q6. Please indicate whether you strongly agree, somewhat agree, neither agree nor disagree, somewhat disagree, or strongly disagree with each of the following statements.

# Losing momentum: >70% consumers believe they are already doing all they can

## Environmental Attitudes

"Strongly" and "Somewhat Agree," Average of 23 Markets,\* 2019–2023

\*For consistent tracking, this chart does not include Colombia, Egypt, Netherlands, Peru, Portugal, Singapore, Thailand, and Vietnam, as these markets were not surveyed in 2019.

24 Q6. Please indicate whether you strongly agree, somewhat agree, neither agree nor disagree, somewhat disagree, or strongly disagree with each of the following statements.

## Bridge the gap to gain trust and build momentum

---

- ➔ Meet consumers where they are – know your audience
- ➔ Highlight the link between environment and wellness – make it personal
- ➔ Recognise geographical differences – localize and motivate
- ➔ Look ahead – drive behaviour change

# Incorporating diverse and regional perspectives

**Álvaro Almeida**  
Director,  
GlobeScan Brazil

São Paulo

# A significant aspirations-action gap for sustainable living persists in all markets; gap is largest in Turkey, Mexico, Argentina, and South Africa

## Gap between Desire to Change vs Changes Made for Lifestyle to Be More Sustainable

By Market, 2023

### All from Global South

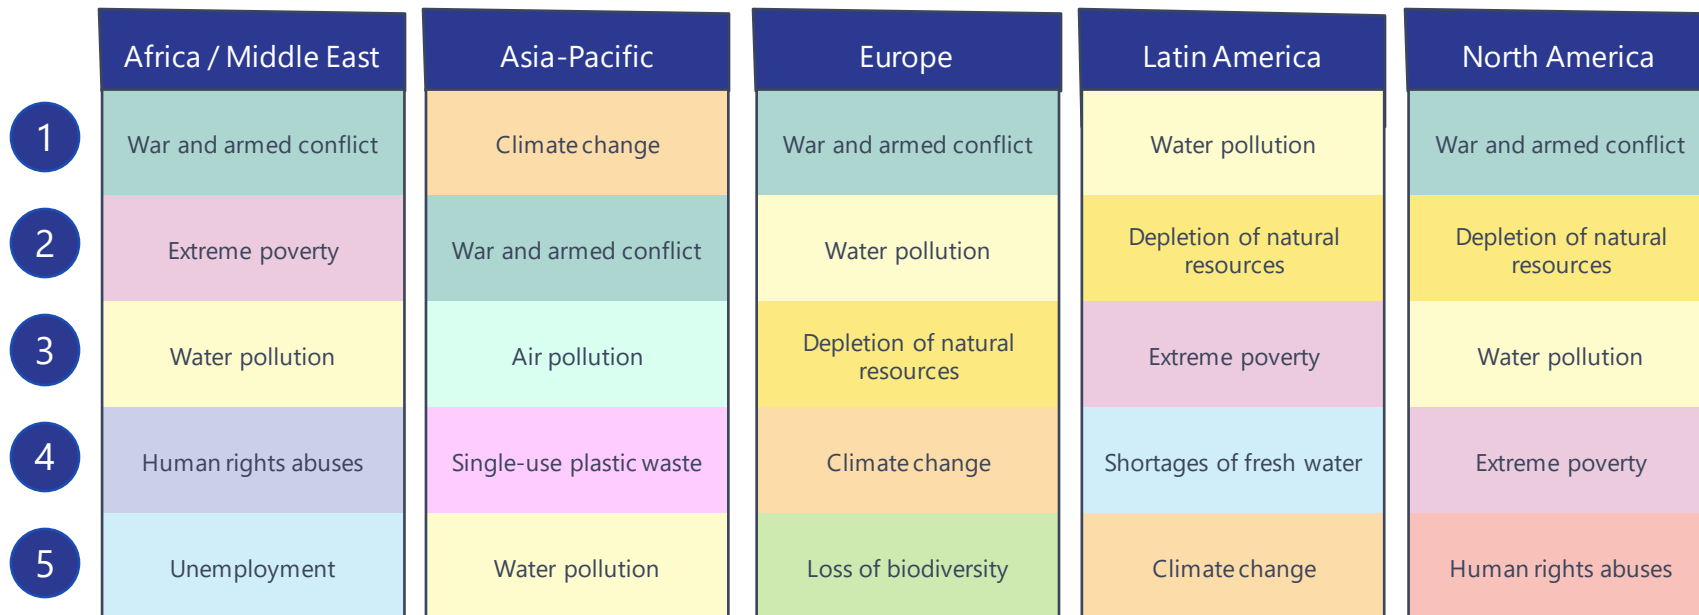

Q2.1 How much would you like to change your lifestyle to be more...? – Environmentally friendly, reducing my impact on the environment and the climate

Q3.1 Have you made any changes to your lifestyle in the past year to be more...? – Environmentally friendly, reducing my impact on the environment and the climate

# Priority concerns vary across regions, with climate change at the top in Asia-Pacific and water pollution most worrying in Latin America

## Perceived Seriousness of Global Problems

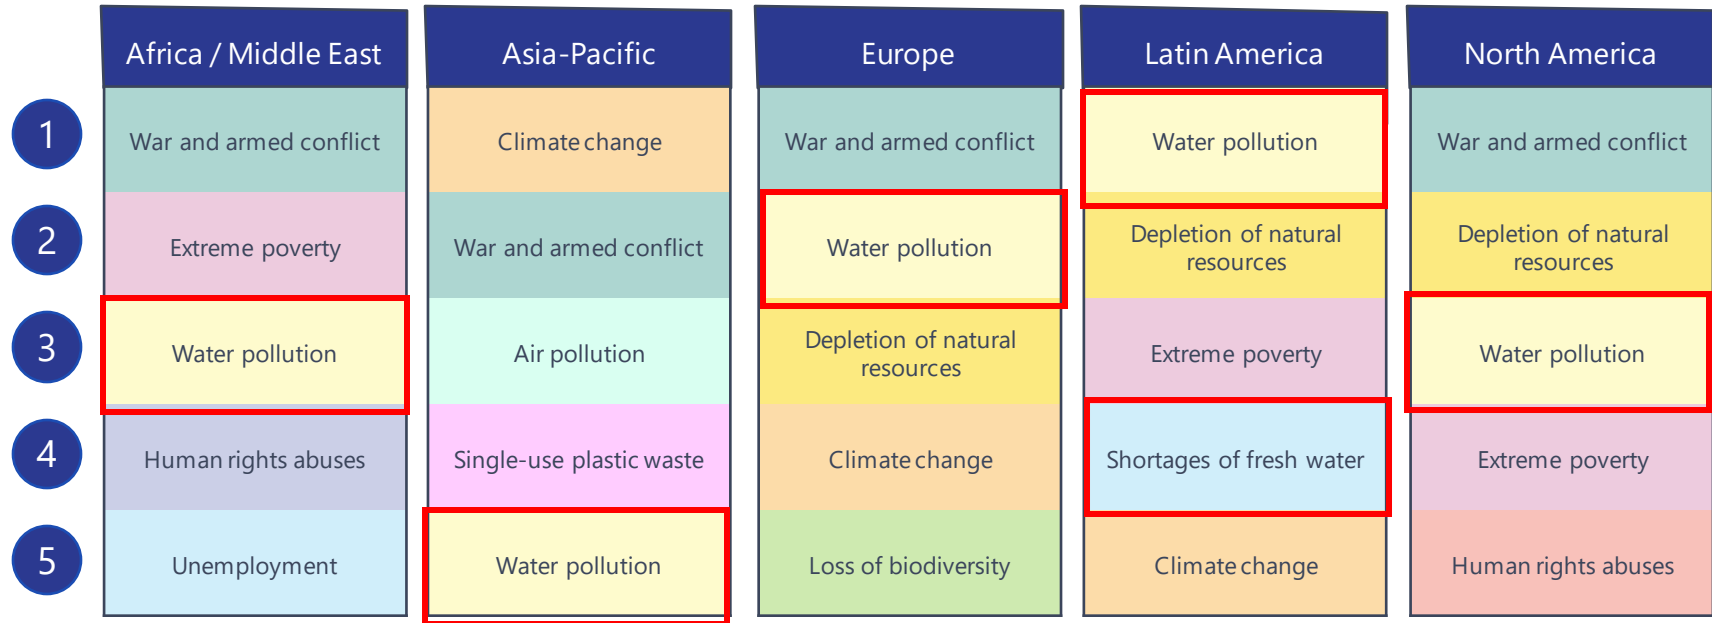

"Very Serious," Top Issues, by Region, 2023

# Priority concerns vary across regions, with climate change at the top in Asia-Pacific and water pollution most worrying in Latin America

## Perceived Seriousness of Global Problems

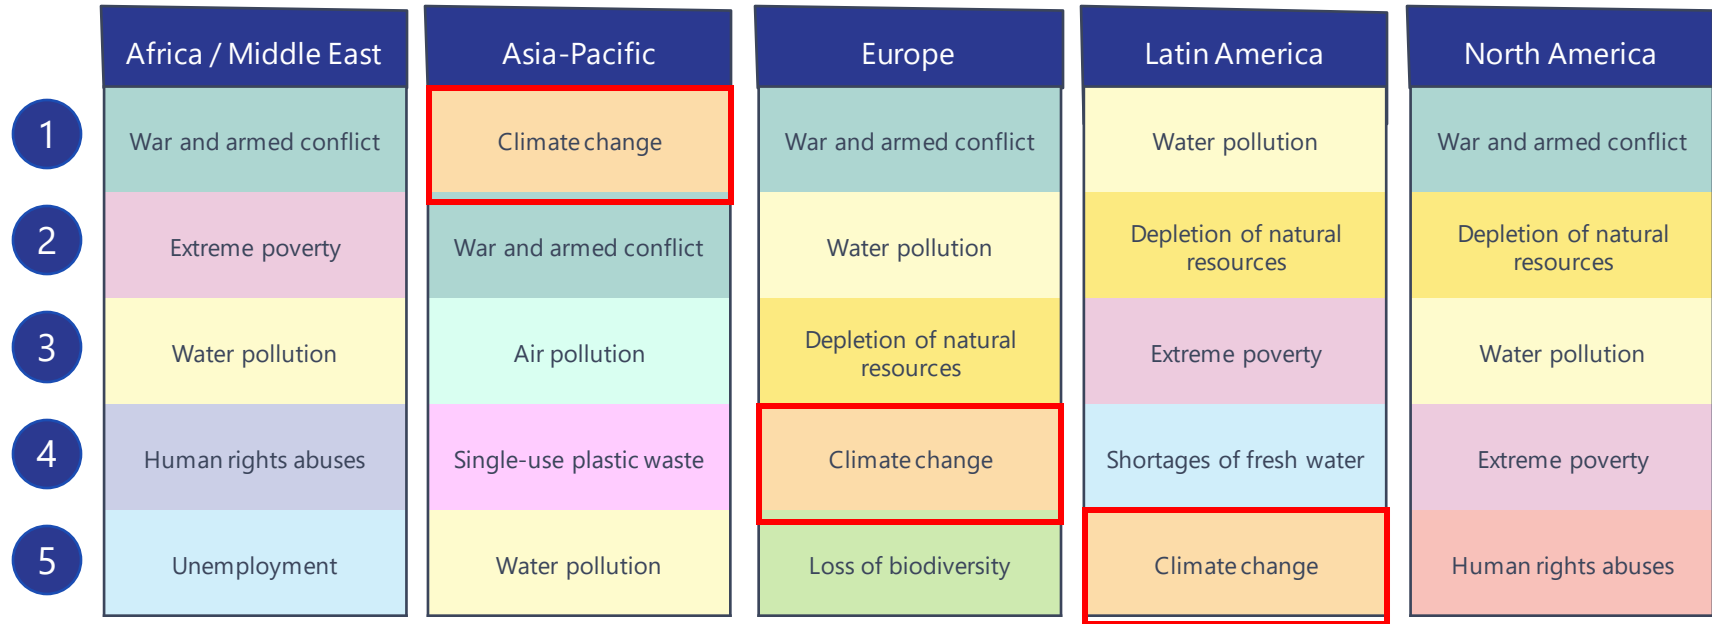

"Very Serious," Top Issues, by Region, 2023

# Priority concerns vary across regions, with climate change at the top in Asia-Pacific and water pollution most worrying in Latin America

## Perceived Seriousness of Global Problems

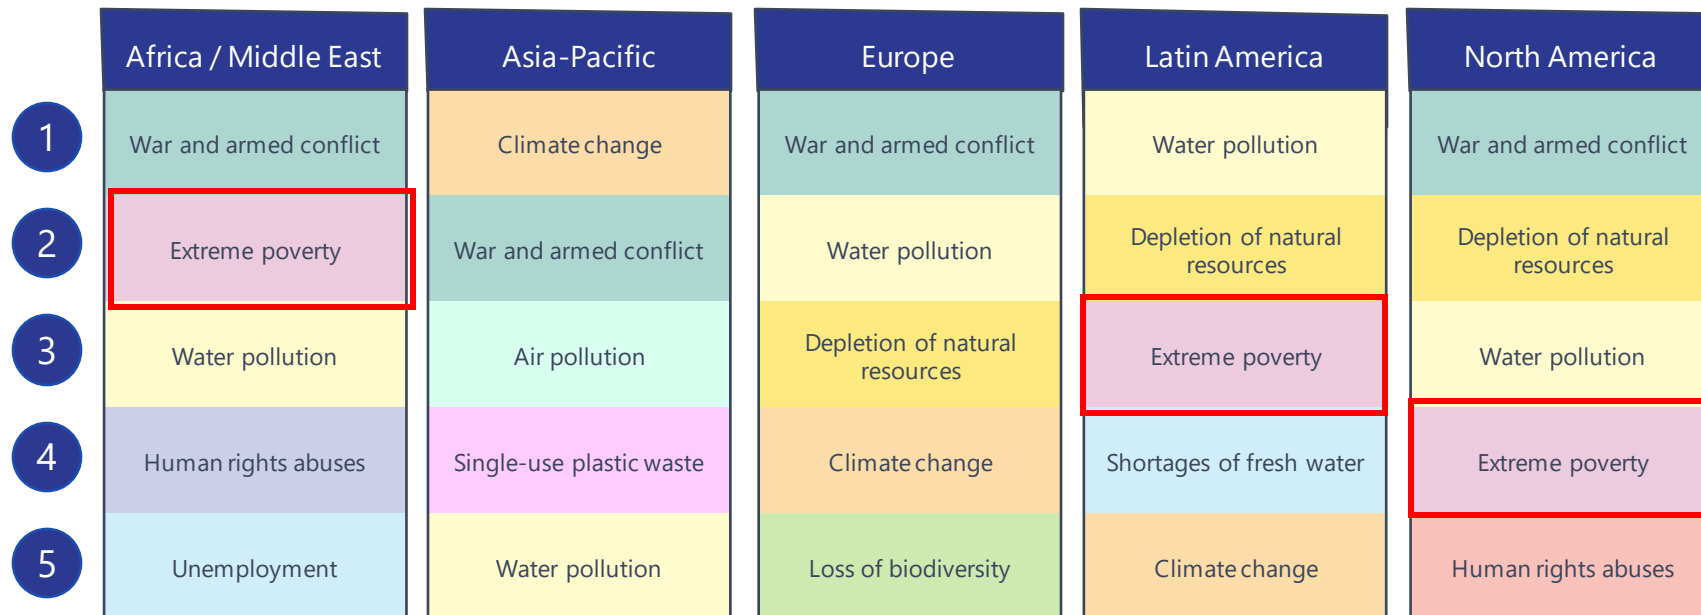

"Very Serious," Top Issues, by Region, 2023

# Priority concerns vary across regions, with climate change at the top in Asia-Pacific and water pollution most worrying in Latin America

## Perceived Seriousness of Global Problems

"Very Serious," Top Issues, by Region, 2023

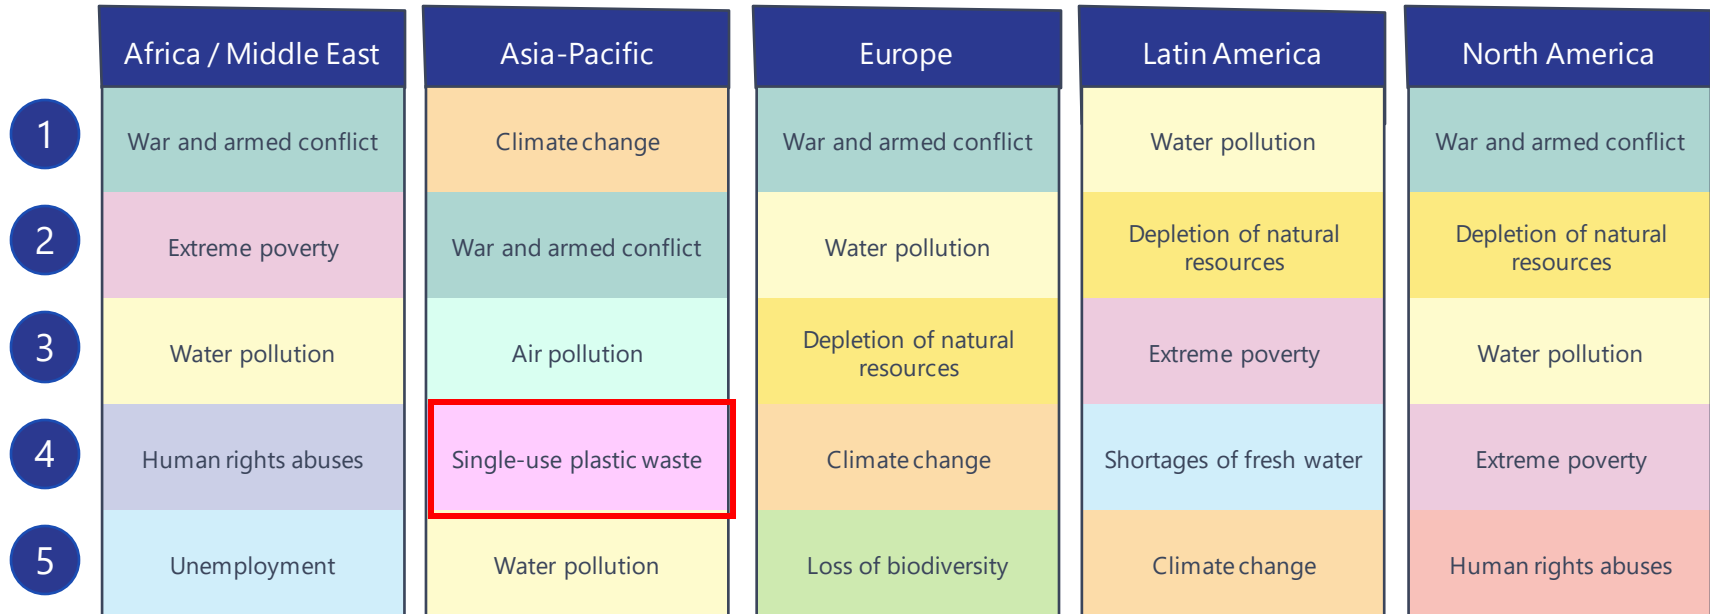

31 T1. For each of the following possible global problems, please indicate if you see it as a very serious, somewhat serious, not very serious, or not at all serious problem.

# Priority concerns vary across regions, with climate change at the top in Asia-Pacific and water pollution most worrying in Latin America

## Perceived Seriousness of Global Problems

"Very Serious," Top Issues, by Region, 2023

32 T1. For each of the following possible global problems, please indicate if you see it as a very serious, somewhat serious, not very serious, or not at all serious problem.

## The urgent need to incorporate regional perspectives...

- ➔ Global problems vs local activation
- ➔ The imperative of just transition
- ➔ Diversity of social local contexts (tradition, values, culture) and priorities (needs)
- ➔ Communications and Engagement depends on meaningful local associations
- ➔ Map local associations to better activate stakeholders, even more in Global South

# ESG is dead, long live ESG

London

**Pendragon Stuart**

Director,

**GlobeScan UK**

# ESG has risen rapidly, but has suddenly faced major challenges

## The rise: business friendly sustainability

ESG assets may hit \$53 trillion by 2025,  
a third of global AUM

## The pushback: from opposite directions

To little:  
Rebrand of  
business as usual

Too much:  
Business  
disrupted by  
politics

Between the momentum and the challenges, which way will ESG pivot?

# Both challenges will evolve rapidly

**Too little:  
Rebrand of business as usual**

**Too much: Business  
disrupted by politics**

New reporting standards demand disclosure of **financial impacts**

Some require **assurance and measurement of impact on society**

The *question* is politicised, but the citizen and retail investor *appetite* is not:

\*Includes Australia, Canada, France, Germany, Hong Kong, Italy, Japan, Singapore, UK, and USA. Subsample: Asked only of those who say they own shares ("Own and invest in stocks/bonds directly," "Own and invest in EFTs (exchange-traded funds) or mutual funds directly," "Participate in a company or government pension or retirement scheme.")

T57. How much do you support or oppose your fund or pension plan to do each of the following?

## So what is next and what does it mean for organizations?

- ➔ Investor interest is not disappearing – even if it is not called ESG
- ➔ Develop strategies to partner with investors in the shifting landscape
- ➔ Use reporting drive to inject rigor into sustainability
- ➔ BUT ensure data gathering does not overtake action

# Pivotal Moment for Corporate Leadership

  
San Francisco

**James Morris**  
Director,  
GlobeScan USA

# Recognized Leadership Is Increasingly Driven by Integration, Impact, and Innovation

Question

Why do you think [insert company #1] is a leader in sustainable development?

Please enter up to two responses in the spaces provided.

# Sustainability Leadership: An Evolving Picture (1997–Present)

Continue to build on the foundation of each era

# Recognized Leadership: The Framework

*The nine attributes of the framework derived from longitudinal quantitative research with global stakeholders*

## Corporate Performance

*Laying a strong performance-led foundation that demonstrates leadership and establishes credibility*

1. Delivering progress on **impact** via ambitious strategy, goals, and commitments (Net Positive, SBTi, etc.)
2. Integrating and **commercializing** sustainability effectively
3. Driving sustainability **innovation** (products, processes, approaches, initiatives)

## Systems Change

*Engaging in collaboration and advocacy to effectively drive systemic change*

4. Listening to, **mobilizing**, and engaging with stakeholders
5. Engaging in sustainability **advocacy** (policy & behavior change)
6. Working with others in **collaboration** and partnership to drive collective impact

## Communications

*Using communication as a strategic tool to inspire and change minds and behaviors*

7. Having a well-defined sustainability **narrative** linked with purpose
8. Being **courageously transparent** and open about performance
9. Investing in **campaigns** and storytelling that inspire behavior and mindset change

# Questions

**Know your world.  
Lead the future.**

## **GlobeScan is a global insights and advisory consultancy working at the intersection of behavior change, sustainability, and trust.**

We partner with leading companies, NGOs, and governmental organizations to deliver insights that guide decision-making and build strategies that contribute to a sustainable and equitable future.

We combine over 35 years of data-driven insights with a global network of experts and the ability to engage any stakeholder or consumer. Our unique research programs and global capabilities help to know what's new, what's next, and what's needed. And our advisory services help turn that knowledge into smart, strategic decisions.

Established in 1987, we have offices in Cape Town, Hong Kong, Hyderabad, London, Paris, San Francisco, São Paulo, Singapore, and Toronto. As a proudly independent, employee-owned company, we're invested in the long-term success of our clients and society. GlobeScan is a Certified B Corp and a participant of the United Nations Global Compact.
